

ELECTRICAL RETICULATION

All the electricians working for **NetPro Group** are members of the ECA (Electrical Contractors Association). All electrical work is carried out in strict accordance of SANS 10142 wiring code. All electrical work is undertaken. From installing a fluorescent lamp to installing large Generators supplying thousands of Amps.

We have completed the successful installation many generators, from tiny 2.5 KVA to 2 MVA units.

We have several long term contracts to roll out of UPS's nationally.

NetPro's focus is on **quality and service**
