

Generators

STANDBY DIESEL GENERATORS

NetPro Group does the end to end installation of the Generators.

- * Planning the installation.
- * Building a concrete plinth.
- * Building the cable ways.
- * Installation of ATS/AMF panels.
- * Connecting into the existing switch gear and buzz-bars.
- * Commissioning and Handover.
- * Issuing of COC (Certificate of Compliance).
- * Maintenance Testing and Start/Run

NetPro's focus is on **quality** and **service**
